MILÂN LABORATORIES (INDIA) PVT. LTD.

# NEW SVP & EFFERVESCENT PRODUCTS FACILITY

## SMALL VOLUME PARENTERALS PLANT:

Our Sterile Injection plant is located at Dahej SEZ, Gujarat. The plant features state of the Art aseptic processing technology, equipments and systems with minimum human intervention for manufacturing small volume parenterals. All vials produced are 100% check weighted automatically thereby minimising manufacturing interventions. The SVP plant is designed considering compliance to stringent global regulatory standards.

## The Dosage forms manufactured in this plant are as follows:

Aseptically manufactured Liquid & Lyophilized Injectables in Vials >

Aseptically manufactured Liquid Injectables in Ampoules >

Terminally Sterilized Liquid Injectables in Ampoules and Vials >

## EFFERVESCENT TABLETS & GRANULES PLANT:

Milân has a capability to manufacture Effervescent Tablets and granules using a proven German technology. Manufacturing takes places in a controlled environmental condition. Equipment capable enough of maintaining 1% Relative Humidity with a Dew Point of  $-18^{\circ}\text{C}$ , helps us in making the process efficient and the product better and safer for our patients.

### Manufacturing Capabilities:

1. Effervescent Tablets
2. Effervescent Granules

### Packaging Capabilities:

1. Strips
2. Tube
3. Pouches / Sachets

**INJECTABLE**
